We will have half of the kids get pizza and half of them get skates when the lesson is over. Please list which teacher's classes we should call for each.

Once the first bunch gets their skates the rest of them will be invited to get their skates after they eat their pizza. The bunch that gets skates first will be welcome to get pizza at any time after they get their skates on.

If your group isn't getting food then we will call the classes one at a time to get their skates.
